

Original assembly context supports specific replication candidates

A SID31160 (control) | Replication candidate | ratio=3.19, local=3.13

B SID532796 (control) | Replication candidate | ratio=3.12, local=2.90

C SID530373 (CRC) | Near-unity example | ratio=1.00, local=1.01

D SID31160 (control) | Near-unity example | ratio=1.00, local=0.94
